A passion for tea steeped in history

The Story of Sir Henry

Tchibo is proud to launch a new and exclusive range of teas and infusions; the heritage of which is steeped in history. To fully understand this history we must travel back to 1802 when our figurehead was born.

He would grow up to develop and maintain a life-long passion for tea as did his father.

His name was Sir Henry.

Sir Henry was the first-born son to the 2nd Earl Grey, who famously gave his name to the aromatic Earl Grey tea blend.

Sir Henry became known as the 3rd Earl Grey; his name and passion for quality tea now lives on through our range of black and green teas, plus our extensive collection of fruit and herbal infusions.
Tea is a must-have staple of many people all over the world; here in the UK, everyone knows a great cup of tea makes everything better! That’s why our traditional range is full of those classic favourites, made from premium quality ingredients.

Our speciality teas will enhance the image of your outlet and with the added benefit of affordable pricing the Sir Henry collection will give you the opportunity to increase your profit margins.
